HYDROMASSAGE

Hydromassage is a relax time to be enjoyed with friends within the water park or at home in one's own personal swimming pool.

Sparkles coming from pool bottom through an air blow and water inflow from surrounding walls create a very special atmosphere.

For public swimming pools is taken the solution of a circular hydromassage with benches or a half circular one matched with sparkle deckchairs. In personal – residential swimming pools it can be put in the roman stairs or placed on a pool side.
