HYDRO - PIPE

Hydro-pipe is a closed slide blue or other coloured. Blind descent creates a special and amusing effect, can be used by any age persons looking for strong feelings

The plant is made by a closed channel called Hydro-pipe, made by hand stratified fibreglass translucent and transparent with coloured pigments.

The pipe has a 800 mm diameter and is composed by 2 assembled half shells.

Starting platform, stairs and support pillars are hot zinced steel.

Nuts and bolts are stainless steel and wet seal is guaranteed by the fitted expansion gasket.
