KAMIKAZE

Kamikaze is for people liking "speed" and adrenalin in blood.

With a plain descent you can reach rather high speeds and all this in full safety.

Any track is made by resin polyester and fibreglass components.

They are non-deformable, stand temperatures within - 25° and + 85°, have plain surface and are very resistant to mechanical stresses, chemical and chromatic deterioration ultraviolet rays, mechanical abrasion, chlorinated or sea water and salty environment.

Inside length of channels is 1000 mm about, external one is 1200 mm and they are 650 mm large.
