## LAGOON

Lagoons are polyfunctional pools fitted to everybody, there are no age limits for their use.

They have a free shape, curvilinear walls, isles can be created in them and the depths are varied as well in real beaches.

There can be introduced slides for children, mushrooms, various water jets, sprinklings and hydromassages. The inlets can become arrival areas for slides, without creating other pools.

Our peculiar specialization in this sector allows to get very good results with low costs. Any lagoon will have sole features diversifying it from the others.
